

Sunny WebBox™

Web enabled data logging and control for alternative energy systems

System access from any Web browser - anywhere in the world

Recording of daily, monthly and annual energy yield via Sunny Portal™

Remote plant diagnosis

Remote system configuration

Automatic data transfer at chosen intervals

Data storage and display via Ethernet

Compatible with all SMA utility interactive inverters

Low power consumption

Automated communication with Sunny Portal™

The new Sunny WebBox from SMA is a powerful communications tool that allows the operating data of your solar system to be logged and easily transmitted via modem or Ethernet to the Web or directly to your PC. It can also send the data to SMA's new internet portal (Sunny Portal) which provides free long-term data storage and graphical display of your system data. Collected information is stored in common file formats so that you can use it in various spreadsheets, graphs or your own web site. The Sunny WebBox is extremely versatile; making the storage, transmission, management and display of your system data easier than ever before.
